Our clients

We serve small, medium and Fortune 500 companies. Our areas of expertise include manufacturing, healthcare, pharmaceutical, chemical, retail, financial, services and third sector.

How we work

Our people and partners are dedicated to providing a distinctive and personalised service to our clients according to their specific needs. We submit tailor-made solutions, taking into account the type of client, activities and local requirements. Our basic concerns are the constant changes to Brazilian rules, in particular the ones related to tax and BR-GAAP (CPCs). Our professionals are certified accountants, who receive constant training, and speak several languages, allowing them to communicate directly with clients wherever they are in the world.

Grant Thornton Brazil has an international business centre (IBC) that provides a gateway to the resources of the Grant Thornton global organisation. IBCs are led by experts in international business familiar with the wealth of experience held by partners around the world. They coordinate this expertise to serve clients across borders.
