How we work

At Abu Timam Grant Thornton, our clients in various industries think of us not just as accountants and auditors, but as trusted business advisers. We view our clients as our partners and ensure our communications with them are always timely and friendly and that we are approachable and easily accessible.

What we do

We provide a range of services:

Assurance

Our audits are partner-led with the assignment partner leading from the beginning throughout the audit cycle, taking full responsibility for the quality of the audit service. They are risk-focused and pay special attention to the areas of greatest risk in clients' business. This approach ensures that the audit is conducted efficiently and enables deadlines to be met without surprises. We use highly automated global audit and other automated audit tools of Grant Thornton.

Tax

We review our clients' tax position. Our tax advisors, who are experienced in both Oman and international tax, will ensure that your tax objectives are met, guide you through the whole process and ensure that our tax advice is correctly implemented, alert you to the latest tax developments and assist you during tax assessments.

We provide clients with the following advisory services:

- business risk services
