Your business in Italy: how we can help

Expanding into new international markets can be challenging due to the many issues to consider and resolve. This is especially true when it comes to Italy, where there are fantastic opportunities but where the lively business environment contrasts with a high degree of bureaucracy.

We can provide expert advice and insight to support you every step of the way, guiding you firmly through the Italian complexities and helping you get the most of our marvellous country.

International expansion is an important step, and with a dedicated international business adviser, who takes time to understand your business and customise the specific services you require, you'll know you have the support to manage the risks and maximise the potential a new market offers your business.

Our advisers can help at every stage of your company's growth cycle: from starting-up, helping you find the best location, assisting you to select the best type of entity (branch or subsidiary), raising venture funding, structuring and restructuring your business, to acquiring or merging with another company, or using Italy as a base to expand into other markets.
